

Edmonton Montessori School

We are excited to announce that we are launching our Preschool and Out of School Care (OSC) at Hosanna Lutheran Church starting December. Our preschool program is guided by Maria Montessori's philosophy and educational methods. Our goal is to offer children from **3 to 6 years old** and their families an authentic Montessori experience and best practices. We also provide OSC program for children **ages 5 to 12 years**, which offers care year-round, closing only for statutory holidays.

If interested, please contact us at **780-266-8008**

Preschool

Preschool Program

Monday to Friday 9:00 AM – 11:30 AM

Our Casa half-day program follows the AMI (Association Montessori Internationale) primary curriculum and Edmonton public school calendar, providing quality care for children aged 3-6. As the name Montessori is the public domain, any school can carry the name without including authentic Montessori programming. Only AMI Montessori is endorsed by Dr. Maria Montessori. Our staff have the AMI Primary Teacher diploma and Level 3 childcare certificate. They have years of experience working with early years and school-aged children at Montessori schools throughout Canada in Toronto, Calgary, and Edmonton. The instructors also have the experience at YMCA covering the Early Years and the Out of School Care program. We use AMI materials, which are innately enticing, didactic, and appealing to the child's natural interests and instincts, and actively engaging each child in "academic discovery". It is our greatest honor to guide your children in their most significant years of schooling.

Before and After School

Out of School Care Program (OSC)

Monday to Friday 7:30 AM – 6:00 PM

We are open from 7:30 am to 6:00 pm, providing care for Meadowlark School before school, after school and during school closures (spring break, summer holidays, etc.). Children are walked to and from Meadowlark school on a daily basis. Children from other schools are welcome at our facility provided they have prearranged transportation. The approach we follow with school-age children is to adopt a "living curriculum", fostering a flexible framework that assumes that learning is a natural process occurring through self-directed experience, optimized by a supportive environment guided by positive adult interaction.
