

## "Say thank you to God" Psalms 136:9

Dear Parents of Terrific 2's,

Welcome March and welcome Spring! I think we are ready for springtime! We are still learning our colors. So far we have learned about red, yellow and orange. We will start the month learning about blue, green, purple and rainbow.

For our crafts, will be making a bluebird, a shamrock, finger painting (mixing blue and red to make purple), and a rainbow. We will sing songs about our color of the week too. We will continue to have a special snack to match our color of the week. After our colors unit, we will begin to talk about spring and Easter.

We are beginning to introduce some new things in our classroom. We are playing more movement games, playing with the parachute (as a group) in our big room and playing language games and playing with musical instruments. They all take an interest in this and like trying new instruments. We are going to have some science experiments involving colors and mixing them together.

Our colors schedule:

March 4th - 7th..... Blue

March 11th - 14th....Purple

March 18th - 21st....Green

March 25th - 28th....Rainbow

Our spring break begins on April 1st to the 7th. We will return to school on Monday April 8th.

### ***Looking ahead:***

We will not have our 2's class on Wed. April 17th and Thur. April 18th, due to our older classes having Grandparents/Easter parties. We will send reminders when the time is closer.

Our last days in the classroom will be May 6th for the MW class and May 7th for the TTh class. We will have a family picnic at Tower Park on Wednesday May 8th from 9-10am. An adult must stay with your child at Tower Park.

We hope everyone will have an enjoyable Spring break!

Thank you and Blessings to all,

Miss Hilary

Miss Angie

Miss Becky
