

“In the beginning God created the Heaven and the Earth.” Genesis 1:1

I cannot believe how fast this year is flying by! Only a few more months, and these kiddos will be kindergarteners! So exciting! This should be a really fun month with Valentine's Day and one of our favorite units...dinosaurs! Progress reports were sent home last week. Please look this over and if you have any questions please let me know. Also, please clean out your child's folder if it is full of last month's stuff. Thank you!

The first week of February is all about the letter /Uu/ and the wonderful universe that God created. We will discuss the solar system and all the planets (including Pluto which of course is now apparently is not a planet) We will add an awesome new calendar song to teach the kids the order of the planets too. It is one of those delightful songs that will get stuck in your head! I will also share with the class some wonderful videos and songs about each planet. We will learn a lot! We will also touch on The United States as well when we talk about our own planet Earth. We will have Ministry Moments on Tuesday. Our special day student on Wednesday, February 7th will be Braylen!

The second week of February will be filled with pink, red, and all things love because we are working on the letter /Vv/ and spending our whole week learning about Valentine's Day! We will be learning the history of Valentine's Day and doing lots of fun themed activities! **Tuesday, February 13th is our Valentine's Day party**, so make sure to send your child into school with their addressed and signed Valentines! Feel free to send them in early so that you don't forget! A bright pink paper was sent home with a class list. We will be decorating bags to hold all of our Valentines so don't feel the need to bring in a box or bag. Thank you in advance to the parents who are helping with our party! Carly Leopold has volunteered to be our party planner with Beth Loechle and Emily Gosney bringing snacks and drinks. Only party helpers attend the party and it will be held at the beginning of our day. Wednesday, February 14th will be Morgan's special day.

Our third week in February is a short one. **No school Monday, February the 19th due to President's day.** This week we will be working with the letter /Dd/ and learning about dinosaurs! Typically, the kids seem to know more about dinosaurs than the teachers do and I am sure someone will correct me on my pronunciation of the various kinds! Aubrey will have her special day on Wednesday, February 21st. Fort Thomas schools have a late arrival day on the 21st. Bluebird times do not change but traffic and parking may be more tricky than usual.

Our last week in February we will focus on /Nn/ and numbers. Most of the kiddos still have trouble with our teen numbers (11-19) so we will do a lot of recognizing and writing these numbers as well as counting to 100. We have a new Mr. Jack video and I know they will enjoy rapping and dancing with it! Knowing and writing these numbers will help them in Kindergarten. Colin's special day is Wednesday, February 28th.

It should be another month filled with fun and learning!

-Ms. Lori, Ms. Caren and Ms. Renee

Upcoming Important Dates

March 28th- No Pre-K
