Discovering Spiritual Gifts

About Spiritual Gifts

As members of a body, we come together through both unity and diversity. Corinthians 12:12-27 reminds us that we are each blessed with unique gifts to grow through our faith and serve God. Discovering our gifts and learning how we can put them to use enables us to not only mature in our personal faith, but also grow spiritually as a community of gifted servants.

Studying Spiritual Gifts

While discovering our spiritual gifts is useful, studying such gifts and learning how to put them into practice are essential for our personal and community growth. Therefore, you are invited to participate in a "Spiritual Gifts Bible Study" that will take place beginning June 10 in the sanctasium between 10-10:50am (during the regularly scheduled bible class time). This twenty-week class will explore spiritual gifts through scripture readings, group discussions and personal reflections. As a group, we will also create opportunities for putting our unique gifts to use in our everyday lives.

As a participant, you will receive a folder with materials to guide this group study. These materials will include suggested scripture, questions for personal reflection, and a template for taking notes during each class. You may choose to attend every week or select dates when spiritual gifts most relevant to your interests are addressed. Please refer to the class calendar to learn more about the week-by-week topics.

Outcomes

- Discover your personal gifts.
- Develop spiritually through reading scripture to understand your unique gifts.
- Learn how to become involved through using your gifts.
- Appreciate the diversity of gifts among others in the church.
- Understand how persons with different gifts can work together.
