

▶▶▶ Construction Volunteers

Construction volunteers are out on the job site doing hands-on work in a wide variety of tasks that may include:

- ⇒ Demolition
- ⇒ Framing
- ⇒ Siding
- ⇒ Hanging drywall
- ⇒ Painting, trim work
- ⇒ Hardware installation
- ⇒ Various other tasks that go into building or repairing one of our homes.

No construction experience is necessary to volunteer on site and you will probably gain some new skills if you volunteer regularly.

Individuals volunteer on Tuesday, Wednesdays, and Thursdays.

Groups of 4 or more volunteer on Mondays, Fridays, and Saturdays.

Opportunities are ongoing throughout the year.

To schedule a volunteer day, email volunteer@lakeshorehabitat.org
