WHO DO YOU SAY THAT I AM?
Pastor Ron Swor – 10.29.23

Genesis 1:26-27

How we are designed and how we flourish is directly linked to God being the Creator of all things and **we have been created in His image.**

“For in Him we live and move and have our being...we are His offspring.” – Acts 17:28

What are some important truths about being created in God’s image and being His offspring?

1. Because we are God’s offspring – we possess an intrinsic value and dignity that places us above everything else in the created order.
2. Because we are God’s offspring – we have laws that protect human life because we are above everything else in the created order.
3. Because we are God’s offspring - male and female are valued and are equal in the created order.
