Summer in Psalms Reading Plan

What if we became a church that deeply believed in the power of prayer? What if every year we were growing in our desire for and reliance on prayer as an essential need in our spiritual growth? It has been said that if you want to grow in your prayer life, just read the Psalms. This is the lens we are going to read with this summer. We are going to pay attention to the prayers being prayed, and learn to pray them ourselves. The Psalms are such a gift of grace. In this compilation of songs, and prayers, and poems we see the complete spectrum of every human emotion. More importantly, we see that our emotions don't have the final word...God does! God defines our reality! And by His grace we are going to be a church that believes in and practices prayer.
