INTRODUCTION:

There was a lady who lived way out in the boondocks for years without any electricity. Finally the power company was able to install electricity to her home. After several months, the power company noticed that very little power was being used at the woman’s house. So a representative went to her home and asked, “Ma’am, are you using your electricity.” “Oh, yes” she replied. “It’s very useful. When it begins to get dark, I turn on the lights long enough to light my kerosene lamps and then I turn the lights off again.”

This lady had power, but she wasn’t maximizing it; she wasn’t getting all the benefits the power was designed to deliver. It’s often the same way with our prayers.

This week’s sermon and Connexion Group Lesson we will explore how to turbocharge our prayers.
