A New School Year and a New Season at LABC

The new school year is underway, and families are settling into routines that will help them manage the busy months ahead. For some, it's simply picking up where they left off last year. For others, it means discovering brand-new rhythms of life.

Here at LABC, some of our children are also experiencing new routines. Our new kindergarteners are moving into the grade school area, while some of our older kids are stepping up into the student ministry. These transitions are both exciting and, at times, a little nerve-racking—especially for parents!

As children look forward to all that is new this year, the Children's Department is also excited to step into a new season. This fall, we're introducing a fresh yet familiar approach to SML—Sunday Morning Live with a brand-new resource: the **Hyfi** curriculum.

Kids and students today are searching for identity, and too often, they look outside the church for answers. **Hyfi** helps us meet this need by flipping the script on traditional ministry. It provides biblically sound tools, engaging media, and interactive experiences that reach the next generation for Christ in meaningful ways. So, what is **Hyfi**?

- **Hyfi** is a media-rich resource that teaches the truths of Scripture in ways kids can understand.
- It uses high-quality media, games, and interactive learning to create an atmosphere of fun and belonging.
- It is faithful to Scripture while engaging kids in ways that connect to their daily lives.
- **Hyfi** helps root the next generation's identity in Christ through 12 simple truths that show them who they are in Him.
- Every session points clearly to Jesus and the gospel.

This is an exciting step forward for our ministry, and we invite you to pray with us as we embrace this new (and familiar) experience together. Our hope is that this will be the best year yet in the lives of our children and families! This Month in **Hyfi**:
