OUTREACH AND EVANGELISM:

Our mission is to engage and assist local churches as they step out to reach their communities and beyond. We recognize that outreach and evangelism are vital to expanding the influence of the Gospel, and we actively support churches in this critical work. Our support focuses on the following areas:

Financial Assistance

We offer financial grants to local churches to aid them in organizing and executing evangelism initiatives. This could include funding for community events, youth camps, outreach missions, and expansion into new areas. Our goal is to empower churches to take action without being held back by financial constraints.

Project Guidance and Mentorship

We provide guidance for outreach projects through our experienced team, offering advice and mentorship for church leaders as they plan their outreach strategies. Our network helps churches navigate logistical challenges, offering strategic planning support that maximizes the impact of their efforts.

Current project Goal:

Our goal is to provide \$10,000 a year in approved outreach and evangelism projects. Not only is this our financial goal, but we are committed to approving projects, with a clear strategy for reaching communities and sharing the Gospel.
