

## Henderson Mennonite Brethren Church Cemetery – Alphabetical Listing

Located just west of the intersection of Road 9 and Z Road, Hamilton County, Nebraska

The following is a listing of deceased and reserved cemetery plots in alphabetical order. After the name is a letter with a number, which indicates the row and plot number. (Example: Abrahams, Aganetha, H65; indicates Row H, Plot #65.) \*\* before the name indicates a reserved plot - person is likely living.

The information is based on visual examination of the grave markers and prior cemetery records, specifically a record compiled by Lawrence Buller and Ruth Peters in 1989. In that document there were some names assigned to grave plots for which there are no markers in place at the time of visual inspection (September 2011). These names continue to be included in this updated document.

In his preface to the 1989 record book Lawrence Buller wrote that there had been an early cemetery record book but that it seems to have been lost in the 1920's or 30's. Therefore, some of the information about individual graves may be from personal recollections that Mr. Buller garnered from other sources. A copy of Mr. Buller's record is kept at the Henderson M.B. Church.

Information about dates of birth, dates of marriage, maiden names, etc. is taken from the grave markers or from family genealogical records. Spelling of names and dates from the graves are listed first. Where there is a conflict between information on the grave marker and other records a notation is made in the entry. Some personal information about individuals that was in the 1989 record is not included in this record. Additional information about family relationships can be found in an expanded version of this record.

Persons who have knowledge that could correct or expand on this record are encouraged to contact the church office (402-723-5845).

Submitted by John R. Quiring, September 2011 (last update – May 1, 2017)
