Autism Spectrum Message

Unexpectedly similar to the messaging about Down's Syndrome, God also chose to address me on the issue of Autism. On 9/10/2010, I heard a statement which consisted of two one word sentences. The first was "*travesty*" and the second was, "*Autism*". In a discussion with a small group of parents who had children within the autism spectrum, they virtually, unanimously felt that the travesty was people failing to understand that their children had many positive contributions to make in the learning process but these were being overlooked in favor of how educators wanted to look upon them simply as people who needed to be corrected or taught by their own system.

On 10/11/2010, a second statement came about autism as a response to my prayer seeking further guidance. "*God can infiltrate every mind. Here are the people who can think outside the box*".

On 10/22/2010, a third statement came, "*Theirs is perfection within imperfection*".

On 12/29/2010, the fourth statement would be heard, "*Cease thine efforts to understand autism. Let Me explain what I want you to know. My kingdom come lessens life in this world as a valuable format. They are ambassadors of truth. Let Me fend for them. I know how and what I want to accomplish through them. Likewise for Down's Syndrome. I am the Queen of destiny perceived and initiated*".

Upon reading the message about Down's Syndrome and the Queen, one can see that once again Mary is involved with a group of people who are meant to accom-

plish support for her interests and ministry in this world. In books printed by Michael John Carley and Willman Stillman, we note similar supportive messaging from these authors about a contact with a higher being and a higher consciousness within the autism spectrum. We await the reason and the purpose that these messages on autism were given to the Christian Laity Foundation and what possible ministry might be involved in further service to God that these ambassadors serve.

Michael John Carley, the Director of GRASP (Global and Regional Asperger Syndrome Partnership) was invited to appear on our radio broadcast of spiritual healing Radio. You can listen to his broadcast on our Spiritual Healing Radio Media Center.
