Second Grade has started fast and furious! We immediately started to work on new curriculum and the kids have done a great job learning and keeping up. I have been so impressed so far with how well they have been doing on their work. They are a very smart group and I am looking forward to seeing how much we are able to learn and grow this year.

Reminders and Things to Work on:

- All homework is optional, they can practice spelling words and/or complete the packet for a hole punch.
- We are struggling with talking instead of listening during lessons so if I write in their agenda it was because it was a problem, not just a small thing.
- Please make sure you are checking agendas so you know if they have had a hard day or not. If the bad days continue I will schedule a meeting to discuss next steps.
- Make sure you are in our class GroupMe for all updates.
