## Training More Together

Friends,

Thanks to your prayers and generosity, leaders are being equipped with the tools to proclaim the Gospel around the world. In this issue, we'd like to share the stories of several church planters who are making an impact on their communities.

## Mexico - Victor

One church planter who has seen a difference in his community is Victor. "I am truly grateful for Multiplication Network," Victor says. **"This training has been a tremendous support in my spiritual and ministerial growth. I have been able to improve my leadership and help our church reach more people with the message of salvation."**

Victor's church has become a beneficial pillar in the community. Members regularly visit those in the hospital to offer coffee and companionship and also provide food to the elderly on a quarterly basis. "Today, we are better equipped to serve our community and share the Gospel effectively."

## Cambodia - Srey

When Srey first heard the term "multiplication," she didn't understand what it meant or how it applied to churches. That changed when she participated in Multiplication Network's More Churches training. **"These tools have been helpful in equipping me to lead a new small group,"** Srey explains.

Srey's small group has been a safe space for many, including a woman named Vern who struggled with illness and meaninglessness for most of her life. Srey and her small group welcomed Vern into their community and prayed for her. Today, Vern is healthy and sharing the Gospel with the rest of her family.

**U.S. Hispanics - Tomas**

Tomas, a church planter in Hempstead, NY, views Multiplication Network's training as a fundamental tool in starting his church. **"Through the training and resources we received, we have better structured our work, formed leaders with a clear vision, and developed strategies for the growth of the church,"** Tomas explains. "It has taught us how to effectively approach the community through evangelism and social action."

When proclaiming the Gospel in the neighborhood, Tomas and other church members pass out water and other

resources to those who pass by. They also distribute food to families in need, further demonstrating the love of God through their actions.

1/4

Olivia, who recently started a church in Ghana, shares, “Multiplication Network’s training and resources have been instrumental in strengthening my ministry as a leader.”

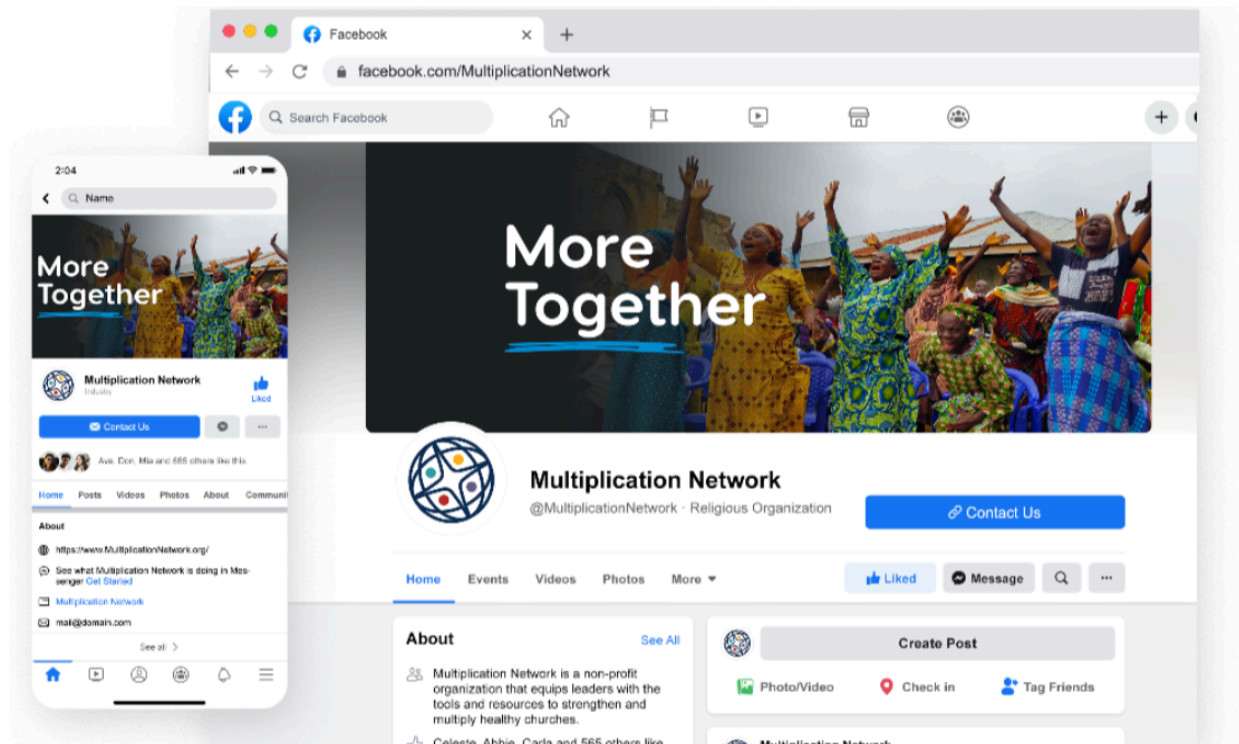

Multiplication Network | West Africa Hub

Olivia’s church in Ghana provides support for vulnerable children, widows, and families. She says her training through Multiplication Network has been instrumental in strengthening her

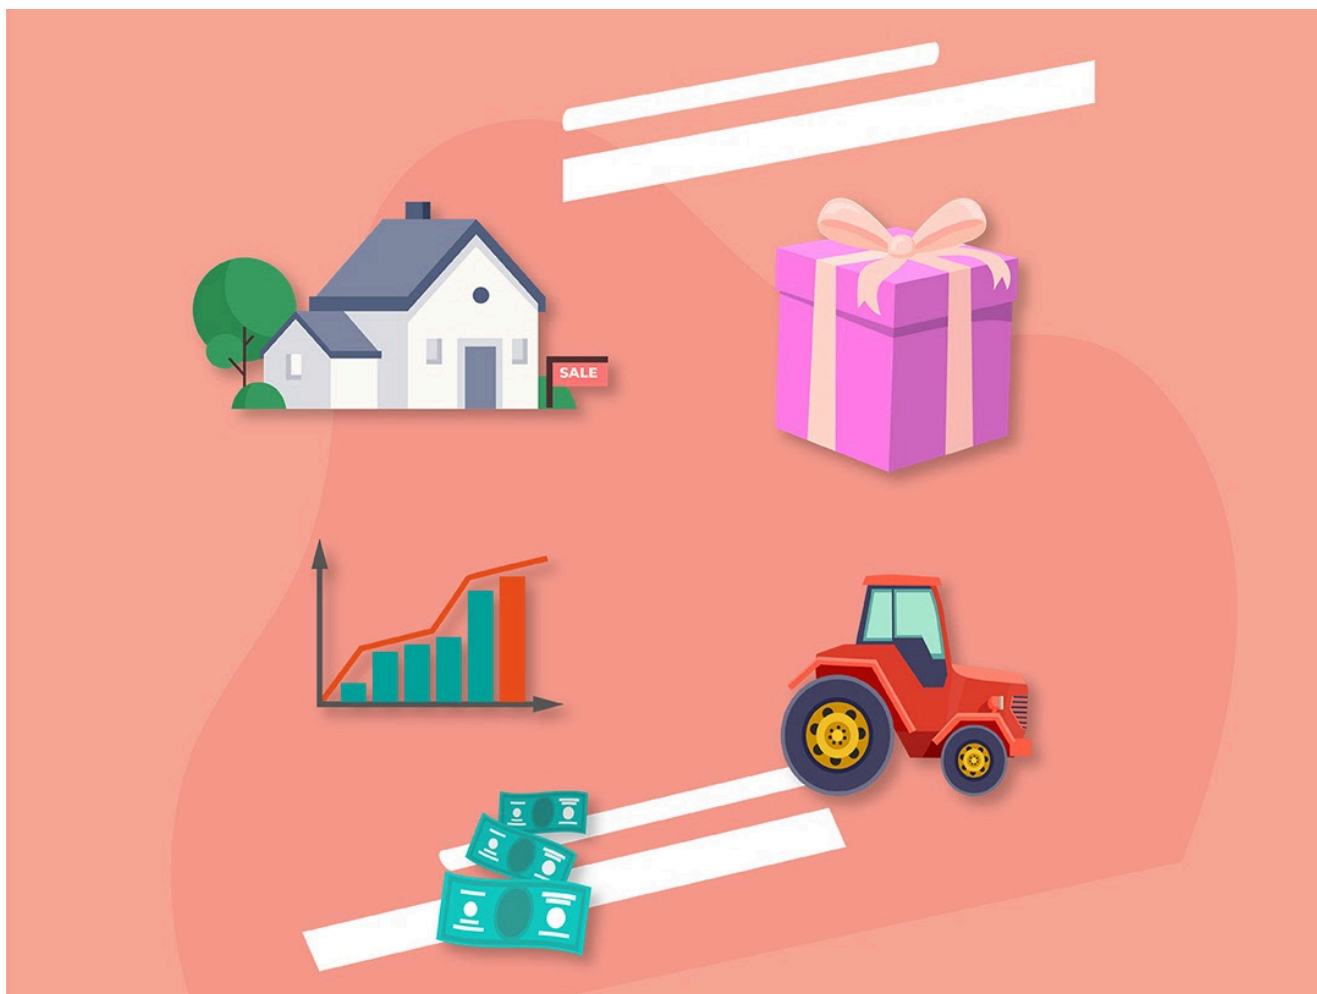

ministry! **#MoreTogether** **#churchplanting**
