

Our commitment to safety

We hope you find Restoration Church to be a safe, secure place for your kids because we understand the safety of children is a primary concern for any parent. So, we go to great lengths to make sure our building, check-in systems, and children are monitored by Restoration volunteers who completed extensive screening and training.

This screening includes an application, three different background checks and personal references.

The training happens on a regular basis and also includes an orientation to our kids safe policy manual and teaching specifically on children's ministry related safety.

It is important to us to have at least two screened workers in every class and accompanying any child to the bathroom. As a parent, you are welcome to visit our classrooms prior to dropping off your children or to stay with your child as they get acclimated to our programs.
