

Planning and Outreach Committee

Spring 2018

We are focused on a 3rd year at the Foote Lagoon Summer Concerts that begin on June 21st and runs for 6 weeks. This community outreach gives our church a chance to pass out a symbolic bottle of water and popcorn. We will have information about some of our summer activities at the church as well as a banner that posts service times and all of our church contact information and address. Additionally, the family outreach committee is looking at a date to host a table at the children's area with crafts for the children.

We are also planning to connect with those people in our church family that have had a connection to our church and no longer attend our church or its activities. With Rev. Jeremiah's help, we are seeking useful information as to why they don't participate in services or any activities any longer. This will help us to plan for the future of the church.

Pick up your t-shirts! We have a new shipment of blue church t-shirts that are available at the ASK ME desk. These are great conversation starters for people as they are volunteering in our community.
