Suggestions for prayers

Please pray for all of the unborn:

- God is active in their creation.
- God does not make mistakes.
- God has a plan and purpose for each of them.

Please pray for the mother of these unborn:

- God would protect their minds and hearts from the lies of being alone, their child being only a clump of cells, and that this is the only solution.
- God would guide them to a pregnancy center.

Please pray for those who work in the abortion industry:

- God will change their heart of stone and soften them to the plan and purpose God has for every life.
- God would place pro-life advocates in their lives to speak the truth about this business.
- God would direct their paths away from the murder of the unborn.

Please pray for those involved with the pregnancy centers and pro-life movement:

- God would sustain them - physically, emotionally, spiritually, and financially.
- God would provide for all who come through their doors - supplying all their needs.
- God would protect them from the schemes and strategies of Satan - they are on the front lines.

Please pray for all of the politicians - national, federal, and local - as they take a stand for life and the unborn **or** have the power and opportunity to stand for life:

- God would strengthen them in their stand so they would not waver.
- God would grant them the wisdom and discernment as they write bills, laws, and guidelines that protect all life, especially the unborn.
- God would break down the hindrances that politicians face as they fight for the unborn.
- The abortion pill will not be accessible via mail or telehealth, and all states would see through the lies that chemical abortion does not harm the mother.

Pray for those at the March for Life offices - national and state - as they go about planning for Friday, January 22nd:

- God would grant them favor with all permitting processes so that there would be no hindrances in their planning.
- God would ordain the speakers, musicians, and participants who will help all attendees deepen their commitment to the pro-life movement.
- God would strengthen them - keep them healthy and safe as they go about the planning and the executing of the plan.
