Mary Snyder, Assistant Director

The Learning Center is a Christian, play-based early childhood program serving children ages one to five. We offer both Mother's Day Out and preschool programs.

The Learning Center emphasizes basic Christian values, positive character qualities and stimulation of intellectual curiosity. Activities are planned to help each child acquire the basic skills needed as they become developmentally ready to read and write. In addition, social development is learned and enhanced as children play, grow and progress through our programs.

The utmost goal of the Learning Center is for each child to feel loved, secure and free to develop the God-given characteristics which make each child feel special and unique.
