# Job Description for Worship Tech Support Person

## **Purpose**

The Worship Tech Support Person will facilitate participation in worship through management of the congregation's presentation software, sound system, and online streaming, on Sunday mornings and for other occasional services.

## **Duties**

- Facilitate live stream of worship services on Sunday mornings, and for occasional other services
- Prepare sound and video equipment for services and alert supervisor of maintenance issues
- Run presentation software during services

## **Qualifications**

- History of punctuality (must reliably show up every Sunday)
- Familiarity with computers, audio and video equipment, live streaming
- Familiarity with social media platforms and their responsible use
- Troubleshooting skills
- Must be able to climb stairs, see, hear, read and type in English

## **Compensation**

\$30/service (shifts begin 30 minutes before the service time and end approximately 15 minutes after the service concludes)
