---	---

An Operation & Maintenance (O&M) permit is required for all Sewage Treatment Systems (STS) maintained in Fulton County. This permit is transferable with the property and valid for a period of **seven (7) years**. This O&M permit can be revoked at any time if the HSTS is not properly maintained as per the Ohio Administrative Code Chapter 3701-29 and the Fulton County Health Department.

As part of the Operation & Maintenance permit, an inspection of the sewage treatment system must be completed. You may choose to have a registered Service Provider or a Health Department Representative conduct the inspection. As the homeowner, you may conduct an inspection after attending the Homeowner Education course and completion of the test proctored by the Fulton County Health Department. This would register you as a Service Provider, as provided by the Ohio Department of Health, to inspect your own sewage system.

Please choose ONE of the inspection options:

- I agree to have a Registered Service Provider conduct an inspection of my STS.
- I agree to have a representative of the Fulton County Health Department conduct an inspection of my STS and have included the **additional inspection fee (\$80.00)**.
- I would like to inspect my sewage treatment system and agree to attend the Homeowner Education training and successfully complete the ODH test, proctored by the Fulton County Health Department.

Send check or money order payable to:

Fulton County Health Department
606 South Shoop Avenue
Wauseon, OH 43567

Payment may also be made by credit/debit card by calling the FCHD (419) 337-0915.
