### Example:

Let's say a person makes \$400 per week and wants to increase their giving from 5% to 6%. Find the weekly income amount on the left side of the table and follow the line over to the desired percentage of giving. To give 5% based on a \$400 per week income would equal \$20 per week. To commit to the Grow One Giving Challenge, simply increase giving by 1% and move 1 space to the left under the 6% column. This would increase the giving amount to \$24 per week (\$96 per month). It's that easy!
