

Stock Donation Process

The process for the church to receive a gift of stock is:

1. The donor completes the “Stock Transfer Authorization Letter _ Cornerstone GMC” form.
 - a. This provides instructions to the donor on how to send the stock to the church’s investment account and alerts both the church & McCarthy & Cox of an incoming donation. (please deliver directly to McCarthy and Cox)
2. The donor then needs to complete the process of transferring the stock to the church. This could be an online request or a physical form – but it is completed where the donor holds the stock today.
3. Typically, the stock will be sold and then distributed to the church. For information about other options, please contact greg@ourcornerstone.org
