

## **May 21, 2019 CAC Board Report**

The Board met this past week and the following are the highlights from this meeting.

### **Devotional**

Mike Unruh shared with us the different times in his life when miracles have been experienced by him, his family and friends. He also recounted the healings and miracles that have occurred in our congregation at CAC. He emphasized how God manifests his presence in our lives and in his Church when we put our faith in him and surrender control of our lives to him. It is faith building to recall how and when God has answered our prayers and performed miracles in our midst.
