TEACHING PLAN:

Something Worth Exploring

Your students are hungry for truth, and God is calling them to His Word, not just to read it, but to know it and live it. Explore the Bible: Students takes your students book-by-book through Scripture, equipping them to study the Bible together and for themselves. Each session works to help students understand what the Bible is really saying, how to study it, and how to live its truth at home, school, and in their communities.
