

Google Chrome Browser (simple web access if using Chrome)

1) click the email or website link for our Zoom Gathering; this will take you to a Web page where you can enter your name and click “Join”

The screenshot shows a web browser window with the Zoom logo and navigation menu at the top. The main content area displays the text "Please enter your name to join the meeting" above a text input field labeled "Your Name" and a blue "Join" button. At the bottom of the page, there is a dark footer with links for "About", "Download", "Sales", "Support", and "Language", along with a "Help" button.

****if you have Chrome, but it is not the “Default Browser” that opens automatically from a link to bring you to this screen, please see the footnote below (p. 2)***

2) you will now see a box that says “www.zoom.us want to Use Your Microphone” – even if you do NOT anticipate speaking/participating, I encourage pressing “**ALLOW**” (you can always “mute” your microphone later, but this is the easiest way of initially connecting the microphone)

3) you can now hear the meeting and will see options at the bottom of your screen to “Mute/Unmute” your microphone (if computer includes Microphone) as well as “Start Video/Stop Video” (if computer includes Video Camera)

***to manually enter a meeting on Google Chrome browser:**

a) open your Google Chrome browser; then enter “zoom.us” in the address bar and click Enter/Return on your keyboard

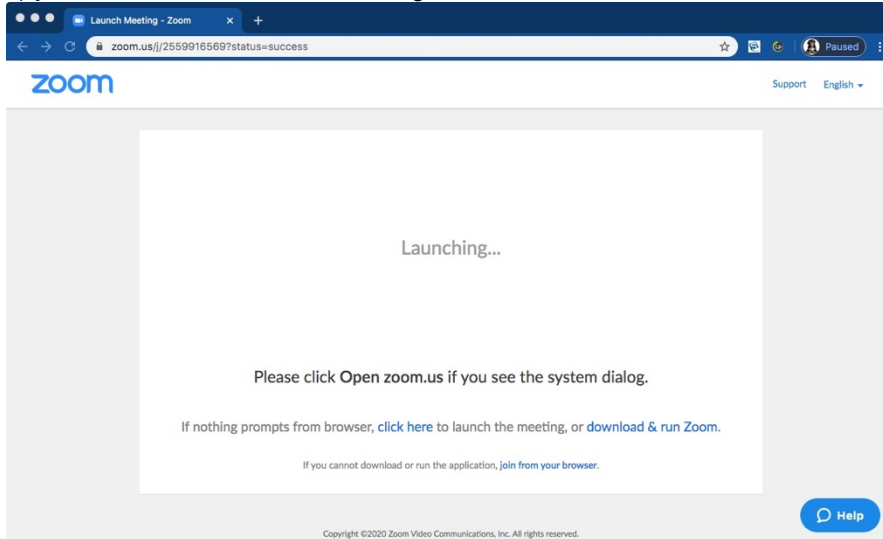

b) toward the top-right of the window that opens, click “**Join a Meeting**”

c) in the new page that loads, enter one of the following numbers in the Meeting ID box and click “**Join**”
Sunday and Wednesday Night gathering – 2559916569

Youth gathering – 763287891

“D2” gathering – 432971396

d) you will now see a screen something like this:

e) scroll down and click “**join from your browser**”

f) enter your name in the box and click “**Join**”

(RETURN to #2 above)
