

Technology Team

Purpose:

To serve the mission of the congregation in proclaiming the gospel and making disciples related to the purchase, management, maintenance and use of technology for the worship life of the congregation.

Team Functions/Tasks:

- **Procure Hardware/Equipment and Software:** To determine technology hardware/equipment/software needs for the congregation's use in worship, and to procure them as needed per the approved ministry budget, or by Council approval.
- **Worship Preparation:** To prepare the projection worship format for use during both regular and special worship services.
- **Operate Hardware/Software for Worship:** To secure, train, and provide the personnel to operate the hardware/software for use in worship – including sound, computer, and video for regularly scheduled services, and for special services.
- **Maintain Hardware/Software:** To maintain hardware/software to insure that technology will serve and enhance the worship experience of St. Mark's.
