Women with copies of the first book in Kinyarwanda

"Thank you again for your faithfulness in partnering with us to see new believers disciplined and national church leaders trained in Africa."

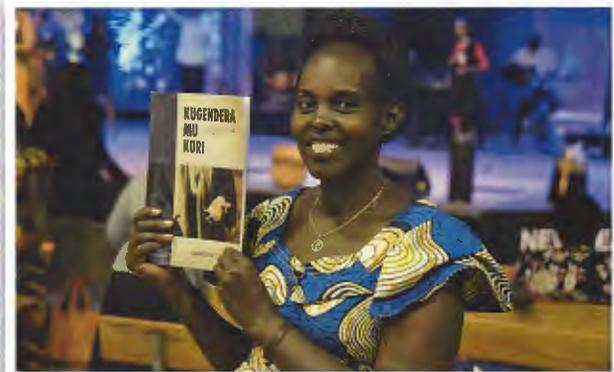

—Todd & Amy

Living the Truth in Kinyarwanda

The Rwanda Pentecostal Assemblies of God has just adopted the Living the Truth curriculum for its discipleship programs throughout the country. At a recent national women's ministries conference that was held in Kigali, the women received copies of the first book in Kinyarwanda. They were so

thrilled to receive this invaluable tool in their own language that they were singing and dancing in celebration. During breaks in the conference, women were seen reading through the material on their own, many with smiles on their faces, saying, "It's written in our language!"

We are excited about this new partnership between Africa's Hope and the Rwanda Pentecostal Assemblies of God, and look forward to seeing all that God has in store for the church in Rwanda. Please remember to pray for the new believers who will be going through these discipleship programs in Rwanda.

Discipleship in Kenya

A new agreement was recently signed between Africa's Hope and the Kenya Assemblies of God (KAG) that will allow for the widespread distribution of the Living the Truth discipleship curriculum in Kenya. We are excited about this development as it will have a dramatic impact upon church discipleship programs across the country. We are so grateful for the leadership of Bishop Philip Kitoto, General Superintendent of the Kenya Assemblies of God, and for this strategic partnership between us.

Please join us in praying for KAG discipleship initiatives, that thousands of new believers will be rooted and grounded in the Word of God and in their newfound faith in Christ.

Thank you

Thank you so much for your support and prayers. We appreciate your prayers during this difficult season of the COVID-19 pandemic. We are trusting the Lord for His protection from the virus and continue to pray for it to be stopped. We are praying for your protection as well and believe that God is working to bring His church through this season even stronger than we were before.

Thank you again for standing with us and partnering with us through these training initiatives to bring the gospel where it is needed most in Africa—to reach the lost, disciple new believers, and plant new churches among the unreached.

May the Lord bless you and keep you healthy.

Lubumbashi Bible School *Phase Two Update*

The brick mason is putting the finishing touches on the outer trim of the phase-two building on the Lubumbashi Bible School campus. The electrician has run most of the wires, all the inner plastering is completed, and the welder is working on window frames. Now that the rainy season is over, the building should be thoroughly dry and ready to be painted soon.

WAAST Extension

WAAST (West Africa Advanced School of Theology) has now officially opened an extension in Lubumbashi for students pursuing a bachelor's degree. Dr. Cécile Bomboko began the first class on March 16, 2020 with twelve dedicated students. Our thanks to WAAST for their commitment to training in DR Congo.
