Audio Technician Job Description

Purpose

The Audio Technician will help to ensure the church accomplishes its mission through the production of Christ Centered services and special events

Description

This is a paid Audio Technician position. The Technician will serve as part of the Worship Team during Sunday Morning services and assists with the Audio/Visual needs of the Pastor and special guests. The Audio technician participates in Worship Team practices (Wednesday Evenings) in preparation for the Sunday Morning Services. The Audio Technician also configures, operates and trouble shoots all audio equipment, connections, soundboard, soundchecks and other testing.

Time Commitment

Approximately 15 hrs/week. The Audio Technician serves during Worship Practice on Wednesday evening, Sunday Morning Services and special events as needed.

Experience

No experience necessary. Simply a desire to serve the Lord through working with technical equipment. Meadow Creek Church will provide all necessary training on all equipment prior to operating equipment alone.

Duties/Responsibilities

- Arrive prior to the scheduled event to begin set-up for the needs of the event.
- Check, replace batteries in and distribute wireless microphones and other equipment needs.
- Keep/maintain an inventory of equipment and equipment needs.
- Participate in Worship Team practices to fully understand service details, transitions and audio cues.
- Coordinate with the Pastor to review the needs and schedule of the service.
- Clean Audio equipment and store properly
- Be available for special events that might need an Audio Technician
