

HAPPENINGS

Every year in January we like to look at our short time goals and our long term goals of the previous year.

In 2023 we were very limited in our outreaches due to covid and civil unrest in the country. Most everything was done over the radio which was very successful.

We were able to do some children's outreaches which is always such a blessing to the children here.

We also were able to help our pastors have a break by sending in a couple to teach for them. They really needed the encouragement.

We were also able to donate 5 fans to the clinic near our house. When they have needs we try to always help with them because they are such a blessing to our community.

We donated a lot of Bible's to the outreach of the churches to the immigrants.

We were able to upgrade our radio equipment and new antennas. Also do regular maintenance.

This year 2024 we are wanting to establish one new church in a remote area that doesn't have a church. There are around 7 villages that have requested for a church in their village. Our long term goal is to raise one up every year.

We are so blessed to be sent to an area where the people are hungry for God.

We will continue to hold conferences for our youth, children and pastors.

We are also going to start ministering to abused women.
