

Internship Program Summer 2019

Established in 2010, Blackbox International is a faith-based, Christ-centered, not-for-profit organization that exists to holistically rehabilitate sex-trafficked boys age 16 and under. Blackbox provides the critical aftercare component for boys rescued from sex trafficking to help them find healing from their past, joy in the present and purpose for their future. We believe they will be restored from the hurt and confusion that has been inflicted upon them and one day become men who will change the world. **The story must change, read more at blackboxinternational.org and consider volunteering with us.**
