Questions and Scriptures for Reflection and Study

1. Read Deuteronomy 6:1-9. Who is Moses addressing this passage to? What are some of the ways that God says we are to remember His Word? In your own home, how are you making the Word of God a priority?

Why do you think these words are addressed to the entire community of Israel and not only to those with children? What responsibility and role do you have in helping raise the children of Riverlawn?

2. Read Psalm 145:1-4. What does it look like to “commend your [God’s] works” to the next generation?

In what ways do you see this lived out at Riverlawn? How are you personally seeking to follow these words?

3. “So here’s the complicated, wonderful truth. If our families are to be all that they are meant to be – schools of wisdom and courage – they will have to become more like the church, households where we are actively formed into something more than our culture would ask us to be. And if our churches are to be all that they are meant to be, they will have to become more like a family – household-like context of daily life where we are all nurtured and developed into the persons we are meant to be and can become.” - Andy Crouch. What are your thoughts on this quote?

What are some practical ways that the church can become more like a family? What are some ways that your household can become more like the church?
