- Each car must be newly built for this year's derby. Cars entered in previous years cannot be used.
- Individuals may build one car for speed, and a second car for design. Or one car for both categories in their class. This same rule applies to the unlimited class as well.
- All cars must fit on, and roll down the track, without interfering with another car.
- The entire car must stage behind the starting pin in the center of the lane.
- Weights and accessories may be added to the car, but are included for all measurements. They must be securely fastened to the car, and fixed in place.
- All car parts from the kit should be used for their intended purpose.

2. If a car fails the inspection, it may be corrected and re-inspected.
3. After a car passes inspection, it will be impounded; the car cannot be modified or lubricated at this time.
4. Each entrant must register their own cars.

RACING:

5. If a car leaves its lane, and the race officials determine that a fault in the track or starting mechanism caused the incident, the heat will be re-run after the fault is repaired.
6. If a wheel falls off during a race, the car may be repaired. The repair must be completed timely, so as to not delay racing. The repair will be monitored by a race official.
