**Instructor Bio:** Heidi Herzog-Dietz has a long history of sewing experience, from the time she was in grade school and taught herself to sew on her mother's sewing machine to the present, making clothing for herself and others. It was in the early 1980s when she was employed at Jo Ann Fabrics that she started to quilt, again teaching herself from Eleanor Burns "Quilt in a Day Book". In 1999, she added machine embroidery to her hobbies, and today that has turned into a home-based business for her.

Over the years, Heidi has taught many classes either privately or at local sewing machine dealers. She was able to team up with Carolyn Burgess of Applique, Quilts and More, and enjoys creating new samples, giving demos, teaching classes and traveling to various quilt shows and sewing expos.

### **Skill Level Definitions:**

**Beginner-** An easy project suitable for a quilter just starting out. To build quilting skills, good beginner skills include basic seaming, 4-Patch squares, and other simple piecing projects

**Intermediate-** An intermediate quilter may have mastered more skills than a beginner or novice but still not be ready for advanced quilting techniques. Some intermediate quilting skills include simple free-motion quilting, piecing, and needle-turn applique work.

**Advanced-** Advanced quilting techniques include needle-turn applique work, curved piecing, feathers, and complicated free-motion quilting. Advanced quilters may also be ready to design their own quilts or work free-hand on more complicated designs.
