

Orengo Christian Preschool

Posted Monday, October 26, 2020

After weeks and months of prayerful consideration regarding when and how we can safely open Orengo Christian Preschool, we have determined that we cannot safely reopen at the present time. We are committed to providing a safe environment for your children and for our staff; because of Covid-19 restrictions, we are not able to ensure a healthy, comfortable, and safe environment at this time.

Thank you for inquiring about the preschool and our ongoing plans. We are committed to providing your preschool-aged children with a program that teaches them the educational basics needed as they enter kindergarten and beyond, as well as the social environment necessary as they begin interacting with their peers.

With no timetable in place, we will continue to monitor the extent of the Covid-19 virus, as well as guidance from state and local governments as we determine our next steps. Thank you for your past support and participation in our preschool program.

Sincerely,

Rev. Mark Rainey, Orengo Presbyterian Church
Sherry Wright, Orengo Christian Preschool Director

Orengo Christian Preschool Statement:

We are notifying you that on Monday, March 9, 2020, a preschool student's caregiver was in the Orengo Church building, picking up a preschool child. The caregiver has been diagnosed as positive with the COVID-19 virus. Subsequently, the preschool child though has not been tested positive but has had a high fever, cough and pneumonia. The student had their last contact with the classroom March 11th. We ask that you join us in our prayers for this family.

Per the governor's directive, the preschool remains closed at this time.

Please go to www.orengochurch.org to see statements and responses to the COVID-19 virus issued by the Orengo Presbyterian Church.
