Lodi Day Nursery School is a private accredited Christian preschool and day care sponsored by Bethel Open Bible Church. It was established in March 1969 to provide a comprehensive early childhood program for the greater Lodi area.

The Lodi Day Nursery School

...OFFERS the child an atmosphere of acceptance and affection created by a staff experience in Early Childhood Education.

...ALLOWS the child to explore and test an environment carefully planned and provided to meet his needs in an atmosphere of Christian Education.

...ENABLES the child to learn about the world, learn about himself and learn to relate to other children and adults.

...PROVIDES a curriculum of excellence including the following:

1. A reading readiness complete with music, rhythm, games, math, science, language arts, story time and creative art.

2. A Bible curriculum as a basis of character development.

### Philosophy

We consider our school a small community that seeks to educate children to be creative, humane and sensitive individuals. At our nursery school childhood is cherished. Yet, we are forever mindful that we must also equip our children with tools and skills that enable them to meet the demands of a complex world.

Our challenge then is to provide a climate of growth where children are encouraged and helped to understand their world through the full use of their feelings and intellects. To this end, we base our learning on four principles:

- We believe in and teach the principle of Christian education as a lifestyle based on the Word of God.
- We believe that a child's self-image is the most important ingredient in the learning process. A child must perceive that he/she is an individual whose thoughts, feelings and emotions are significant and worthwhile.
- We believe that each child is unique in his/her mental capacities, emotions, skills and interests.
- We believe that play is vital to a child's learning. It is the medium for self-expression and the way each child organizes and makes sense of the world.
