A MESSAGE FROM PASTOR DOUG

"The Trees of the Field"

I recently read this in a news feed article and it has been published in quite a few periodicals:

"The study conducted in the Dolomites, Italy, revealed that spruce trees in the Costa Bocche forest synchronized their bioelectrical signals hours before a solar eclipse. This phenomenon, detailed in the journal *Royal Society Open Science*, suggests that trees may sense and respond to environmental changes as a collective group. The research involved monitoring the bioelectrical impulses of spruce trees and found that they not only reacted to the eclipse but also anticipated it by synchronizing their signals. The study's findings add to the understanding of plant behavior and the interconnectedness of ecosystems."

Wow! This brings a dimension of literalness to Isaiah 55:12:
"For ye shall go out with joy, and be led forth with peace: the mountains and the hills shall break forth before you into singing, and **all the trees of the field shall clap their hands.**"

TITHES & OFFERINGS

If you are a visitor here today, it is our desire simply for you to enjoy the service today. If you consider this church your home church, the Scriptures teach **that each man should give as he has purposed in his heart with God; that everyone should give as they are able; and that giving should be done with a joyful heart and not grudgingly.** For further study read 2 Corinthians 8 & 9.

We do not take an offering; we have available an 'Agape Box' for all gifts and prayer requests.
