## Activity:

All Human Life Matters

Webster's dictionary defines value as relative worth, utility, or importance.

### What matter's most?

This question game is meant to lead to discussion about our worldview in regards to the Sanctity of Human Life. It is probably important that before you play with your kids you go through these yourself and think about what God's word tells us, so you will be prepared to share the biblical viewpoint. It might be easy to 'know' the right answer, but what does it look like to act on it.

What matter's most:

- A chicken or a baby?
- Your family pet or your neighbor?
- A kid or an adult?
- A business person or a person in a nursing home?
- Being on time or helping someone in need?
- Your favorite toy or a mean kid?
- Someone from America or someone from Africa?
- Your Bible or a firefighter?

You can talk about some of your own ideas to stimulate conversation and we know some of these are answered with neither matter most because ALL people matter.
