

St. Mark's Day School

Learn. EXPLORE. Discover.

PRE-KINDERGARTEN

The Pre-Kindergarten program at St. Mark's is designed to support children who are four before September first. Our talented staff works to provide our Pre-Kindergarten students with a well rounded and balanced curriculum that is play-based, hands on, and exploratory. The focus of the program is to prepare children for Kindergarten while enhancing your child's two greatest learning tools:

curiosity and attention. This program expands upon the skills taught in the Preschool program by helping your child develop self-esteem, independence, and critical thinking skills.
