

St. Mark's Day School

Preschool 3

St. Mark's Day School offers morning preschool classes to children who are three years old before September 1st and fully potty trained.

Our preschool program is play-based and encourages our young learners to express themselves through creativity, music, art, dance, and dramatic play. Our curriculum emphasizes early learning skills that are not only academic but meet the social, emotional, and physical needs of early childhood. Our three-year-old preschool program works to foster independence and build key foundational learning skills.
