Paul & Ana Hill - Santiago del Estero, Argentina -
sgohills@hotmail.com

Dearest friends and partners:

The arrival of Carlos and Cristina Albornoz has brought a new and fresh impact to Cabildo Church. Many are the aspects of ministry that are changing dynamically.

- The part time financial support of a pastor has brought financial growth to church treasury, in the midst of high inflation and financial uncertainty.
- As we organized the new year, new leaders have stepped in and have brought new dreams and a new excitement.
- There is a new enthusiasm in the seminary classes. The class has grown and one of our students is teaching a class to 16 adults in another church in a different part of town.
- Once again the Lord touched the heart of the owner of the property as we renegotiated our contract and we continue to pay a very cheap rent. It is even more amazing when you take into consideration that all repairs, upkeep and remodeling are discounted from rent.

- The 20th of April we will be baptizing 12 people in Huiñaj Atum.
- For Narella Córdoba's health as she juggles the rural ministry, the youth group and college, all on a shoe string budget!
- Pray for direction as we search for Cabildo's future leaders.
 - Nico and Darlene Buffa are new and young potential leaders
 - Carlos and Elizabeth González are experienced and proven leaders.

FAMILY

- As we take care of aging parents we pray that the Lord would grant them mental alertness until He calls them home.
- Pray for the Lord's direction and for the spiritual well being of our children as they have grown into adults and leave the nest.
- Pray for our support as we are about 5% under supported.

ARGENTINA

- This October we have presidential elections. The hopes and expectations that brought in the present government has slowly eroded away as inflation is chewing away at people's pockets. Fuel prices this year have gone up 65%! What has happened is that the economy is turning into a dollar economy and the continually rising exchange rate is transmitted directly into the price of things while the salaries don't quite keep up. Many people are going to cheaper brands but production cannot keep up with supply so they are becoming scarce. There is rising civil unrest, there are many strikes carried out as well as people gathering in crowds at key places, blocking traffic and making trouble. A government that has brought peace, respect and is trying to really once and for all change the country now has its back against the wall.
