***“I will put My Spirit in you, and you will live, and I will settle you in your own land. Then you will know that I am Yahweh. I have spoken, and I will do it.” Ezekiel 37:14***

Dear Friends,

We greet you at this special time of year – new life of spring and resurrection life in Jesus! 2019 has started off with a bang for us – and we are delighted to share how God is bringing new life into our world!

We traveled to Ghana, West Africa, for the month of February and participated in a “Greenlight Medical Program” for TMS Global,

mentoring medical students from Ghana and the US alongside our TMS colleague, Dr. Cam Gongwer. Cam served

with his family at Ankaase Faith Healing Hospital for 14 years. It was a joy to share life with these young people exploring long-term medical missions, growing through cross-

cultural medical experience and spiritual disciplines for disciple-making.

After nearly 4 weeks in Ghana, we traveled on to northern Uganda and met the director and staff of Global Refuge International (GRI) who serve refugee living near Imvepi and Odobu Medical Clinics. It was wonderful to meet dedicated staff (**many of whom were refugees themselves in the past**) who support healthcare workers providing general medical care in very basic facilities. Twenty Field Medical Representatives (FMRs) had been trained last year to be a first-line link within the villages of the camp, teaching on healthy living and disease prevention in their homes. These FMRs were trained to test and treat basic malaria in community, and we were privileged to do home visits in follow-up with these families. Quick response to young children with fever with these services helps to avoid long lines at the clinic and saves lives of those under 5 years of life, the most vulnerable!

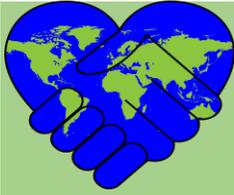

**Home Visits with FMRs at Imvepi Clinic**

Then we attended a 2-day training for 20

FMRs at Odobu Clinic in another region of Rhino Camp. It was encouraging to see the enthusiasm among this group of young refugees,

excited to learn and to help in their own villages. We are in discussions now with GRI Leaders about ways we can provide further training and mentoring to empower even better care to these people living outside their troubled country of South Sudan.

While in Uganda we were blessed to connect with many friends from Yei, South Sudan who currently live and serve in Arua and the surrounding resettlement camps. One of the

highlights was meeting young people now able to study medicine (nurses and clinical officers) because of scholarship monies donated by friends to TMS Global.

**Yikki, a nursing student**

Late March we were blessed to be part of the TMS Global President's Gathering in Amelia Island, Florida. The theme, **RISE**, was so inspiring as we and many others shared stories of hope – just like NEW LIFE THAT GOD Poured out on the valley of dry bones (Ezekiel 37). We were so blessed to spend time with our son Mark and his wife Kenzi since they also shared with the gathering about God's work through them in Nyahururu, Kenya. Their children Emma and Will loved the children's program at the gathering and brought great joy to these grandparents! 😊

The first week of April was filled with study and a 1-day course for **Helping Babies Breathe** (a course to help train birth attendants in the developing world), and the 2019 Humanitarian Health Conference in Kansas City, MO. This conference provided wonderful new connections with others motivated to serve the "forgotten" in our world. We were greatly encouraged by the large number of young people eager to learn about Global Health.

Easter is now upon us, and we celebrate how God is using us in this season of change. In the midst of it all, WE REMAIN SO THANKFUL FOR YOUR PARTNERSHIP IN OUR JOURNEY.

**Thank you for your prayers, cards and faithful love and support through TMS Global. If you have any questions or concerns, please contact us by e-mail or calling! We'd love to hear from you! "Rabuna amiin – God is faithful" in Simple Arabic!**
