

Home School Co-Ops

Do you want to learn how to homeschool your children? Or maybe you are interested in co-op classes with other families in the area? Firmly Planted Resource Center (FPHRC) and Sonrise are two of many co-op groups that our church families are a part of. Check them out here:

<https://www.fphrc.org/>

Are you concerned your children will not be at the same level of public/private school children or that homeschool will not prepare them for college? Don't worry. There are several schools out there that work with homeschooling families!

Hope Learning Center is an accredited school in the Hockinson area that allows kids to take Junior High and High School level classes as well as work with Running Start.
