

Testimonials:

“I liked the comradery and relationships that were built. I felt as if I grew spiritually grew closer with everyone one on a personal level.” “I loved the time on the bus going down the dirt road looking at the beautiful landscape God had created, and I loved painting the house. God used that quiet time for me to reflect on how much he loved the people in Batey 50.”

“I don't know where to begin. I loved the team we worked with from the hospital”

“This week I learned how to truly love other people. Complete strangers and friends alike. I learned that God has a way of using us to spread his word and I love that!” “I learned how as a global community people from CT and the DR share the same relationship with Christ. We may have not spoken the same language, but we all were there with a common mind set and work ethic.”

“I had zero expectations for my trip last Fall. And I knew when I left La Romana that I was changed. Seeing photos and being able to instantly put myself back there, all the sights and sounds and feels that go along with it. Seeing those kids and being smacked in the heart with the reality that I came home and they are still there, same as they were. I left the DR thinking I would never take another hot shower or trip to the grocery store for granted, and yet of course I have. I am grateful for this reminder from my friends and others who served in the DR this week and I am stunned at how real it becomes once you have been there, played with those angel babies, carried life sustaining food to those so close to starvation they cried to receive it.

I need to share that if you are on the fence about going to serve in the DR, let me encourage you to just do it. It really will change your heart.”
