It is an absolute honor and blessing to be the first family residents in the newest director home on-site. I am incredibly grateful to serve in a place that truly feels like home!

CHAPTER 1 IS NEAR COMPLETION!

We are thrilled to share that all of the Chapter 1 projects of the STORY Campaign are almost complete! Our Programming Director, Julie Johnson, and her family have officially moved into the beautiful new on-site director home, creating space for both ministry and family life to flourish. Meanwhile, the basketball court received its finishing touch: a fresh paint job complete with our signature flame logo at center court. These updates are already blessing campers, staff, and guests, and we are so thankful for your continued support in making this vision a reality!

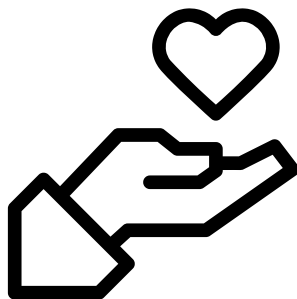

“I worked at several Christian camps during college and I can honestly say there is something so special about BGCC. Being a part of this intimate community brought me so much growth in my walk with the Lord. It offered spaces for me to lead others spiritually while also being served by absolute warriors of the faith. From camp counselor to camp nurse, there is a place for everyone to belong and experience the love of Jesus through camp life at BGCC. Every game, dance, and activity is intentionally thought out to bring each camper closer to Jesus. That's the kind of mission I want to be apart of! I am so grateful for my time at BGCC and all that I learned along the way!”
