

December 28, 2020

Hello, my name is Steven Draggoo and I am a Life Scout in Troop 604, from Lake Forest California and I am beginning to work on my Eagle Project. My project is to re-landscape an island in the Santiago de Compostela Church parking lot. I plan on removing all of the old wood chips and weed barrier and planting low ground shrubs, ground covering plants, re-working the drip system, and creating two pathways to the Pole of Peace (which is in the center of the island). The Pole of Peace will also be illuminated with solar lights. In addition to that, I will be re-installing a Veteran's War Memorial which was removed during the renovation of the Church's patio area.

I chose this project as a way for me to give something back to the Church for sponsoring my troop throughout the years.

I am asking for donations to help me complete my project, which is roughly estimated at \$1,300.

If you wish to donate by check, please make the check out to GLEN DRAGGOO, put Steven's Eagle Project on the memo line, and mail it to the address below. If you wish to donate via Venmo, please send your donation to **@StevensEagleProject** or scan the Venmo QR Code. If you need the 4 digits of the phone number, they are 9459.

Yours in Scouting,

Steven Draggoo
