STATEMENT OF PROGRAM

The “Cross Point Challenge” Confidence Course program is a part of the larger field of adventure education. It will motivate people to venture out into unfamiliar, challenging territories of life experiences. The program has three basic goals:

1. To increase the individual’s level of self-confidence. They will be challenged, in a non-competitive, non-judgmental environment, to take risks as they face unfamiliar experiences.
2. To help participants learn to function in a group setting in a meaningful and productive way.
3. A final, important goal is to instill a feeling of fun into the adventure. These activities are serious business. They are stressful and sometimes painful, but they are also fun.

The course involves each party in activities centered around a series of components or structures made with rope, steel cable and wood. Each presents a new challenge. They will walk and swing on ropes, jump a reasonable distance, support falling group members, participate as a climbing aid, and have close physical contact with other group members. Some of the components are at ground level, some are about **35 feet high** on poles. If rappelling or climbing, the tower is **50 feet high**. On the high components, rappelling, and climbing, each person wears safety equipment consisting of a seat harness, a safety line and helmet. Reasonable precaution to protect the participants is taken. However, unforeseen circumstances may occur for which the personnel of Cross Point Camp cannot be held responsible.

Because of these potential dangers each participant must recognize the importance of following the leader’s instructions. Safety rules and procedures will be obeyed. Appropriate individual conduct is expected. **NO ONE IS ALLOWED ON THE COURSE WITHOUT SUPERVISION.**

Participation in the “Cross Point Challenge” requires physical well being and mental alertness. Report on the Consent form any condition that may restrict participation.
