TABLET ACCEPTABLE USE POLICY

The use of tablets on the King's Valley campus ensures that students are using tools and resources for a 21st century education. Their use empowers students to maximize their potential in preparation for high school, college, and beyond. This technology enables students to become the architects of their education and it enables teachers to become the facilitators of the learning process. Following this acceptable use document assures that the full benefit of the use of tablets on campus will be derived by all students.

1. APPROVED TABLETS:

1.1 Please research which tablet best fits your family in terms of cost and features. The following tablets meet or exceed our guidelines:

- Most recent iPad or iPad pro

1.2 Memory: recommend at least 32 GB

2. INSURANCE

2.1 The purchase of a warranty on the device is at the sole discretion of the student's family.

2.2 King's Valley recommends that families review their homeowner's policies for any questions pertaining to insurance coverage on their student's device.

3. ACCESSORIES:

3.1 Required accessories:

3.1.1 Tablets must be in a drop-resistant case at all times. We at King's Valley recommend "Otterbox" cases. An excellent case (not a cheap case or cover-only) can curb very expensive replacements/repairs.

3.1.2 Earbuds (to be used in class only when students are so instructed by a teacher.

3.2 Optional accessories:

3.2.1. Protective film to cover display and protect against scratching.

3.2.2. External keyboard.

3.2.3. Stylus.
