APRIL MISSION FOCUS

Give Ye Them To Eat

Give Ye Them To Eat (GYTTE) gives local women the opportunity to serve their communities through the More Than a Bandage program. This program is designed to address the health issues and needs of rural communities in Mexico. The objective is to give rural families the opportunity to learn about preventive health measures. This is accomplished by equipping village women as volunteer workers for community-based health care. When the women complete their training, they are able to help their communities deal with diseases, treat illness earlier, and foster healthy living for all.

Sunday Altar Flower Sponsorships

We invite you to place flowers in the Sanctuary in memory or honor of a loved one or in honor of a special occasion. If you'd like to sponsor the flowers during Sunday worship, please contact the office or click [HERE](#).
