APRIL MISSION FOCUS

Give Ye Them To Eat

Agricultural development is another aspect of GYTTE. The objective is to preserve and enhance the condition of the land in order to boost agricultural production that can improve family nutrition and increase family income by teaching sustainable agricultural methods - both ancient and modern. Farmers learn about soil conservation and replenishment, which leads to better agricultural production overall.

Sunday Altar Flower Sponsorships

We invite you to place flowers in the Sanctuary in memory or honor of a loved one or in honor of a special occasion. If you'd like to sponsor the flowers during Sunday worship, please contact the office or click [HERE](#).
