Ministry Purpose: Our vision is to find chapels on the verge of closing (there are many) and the chapel leadership is willing to let an American lead them to recovery. Most Welsh chapels are typically centrally located in towns which make for good access and exposure to their respective communities. Our plan is to rebuild ministries, establish outreach and evangelism while building the congregation to the point where the chapel can support a national pastor on at least a part time basis. At that point I will transition leadership to a competent national pastor. I will repeat this process as many times as the Lord gives us strength to accomplish.

Ministry Timeline: David served in several church leadership positions including teen ministry, visitation, teaching, and director of children's ministries. As Career Missionaries (approved May 2008), they arrived on the field of Wales August 2011. Since Sept. 2013, the Campbells have been engaged in locating, working with and leading a small chapel on the verge of closing in a town which has a need for a solid gospel presence.
